

AFRICAN YOUTH SDGs SUMMIT ANNOUNCES RELOCATION OF 6th EDITION TO GHANA IN 2026

The Secretariat of the African Youth SDGs Summit wishes to officially announce the relocation of the 6th African Youth SDGs Summit from Nairobi, Kenya, to **Ghana**

This decision became necessary due to unforeseen technical circumstances beyond our control. After internal consultations, the Secretariat concluded that relocating the Summit to Ghana would provide the most suitable and enabling environment to host the continent's largest youth-led gathering on the Sustainable Development Goals (SDGs).

Ghana's strong commitment to youth development, its supportive institutional landscape, and its proven track record of fostering inclusive, youth-centered innovation make it a strategic and timely choice for the 6th Summit. Hosting the Summit in Ghana also reinforces the need to reignite and sustain the Youth SDGs convening platform, ensuring that young people's voices, aspirations, and actions are effectively coordinated toward the implementation of the Global Goals across Africa.

To be held under the theme: **“Reimagining Africa Through youth-Driven Solutions”** the Summit will continue its tradition of convening young leaders, policymakers, civil society actors, development partners, and innovators from across Africa to co-create actionable pathways toward achieving the SDGs.

As preparations progress, the Secretariat will soon release updates on the new date, venue, registration procedures, and participation guidelines. Stakeholders are encouraged to monitor official communication channels for forthcoming announcements.

The Secretariat also welcomes sponsorship and partnership support from institutions, organizations, and individuals committed to advancing youth-led sustainable development across the continent.
